

Golden Beach Newsletter September 2020

2021 GBAI Membership

Applications for 2021 GBAI membership were mailed on September 4. Each household will receive a personalized application with the information we currently have on file. Please let us know if any changes need to be made to your information.

Please return your application and dues as soon as possible. Information received after November 1 cannot be guaranteed to be included in the directory.

For those who join, parking stickers and guest passes will be mailed out in December. We have 15 spaces to be shared among nearly 300 member households. Each member household will receive two parking stickers (for owner vehicles only). Due to high member demand for parking spaces, there will be only 1 guest pass distributed per household. The new guest pass will be larger and laminated, making it easier to find on the driver's side dashboard, ensuring that your Golden Beach renters and houseguests do not get a city of Venice parking ticket or have their vehicle towed.

Big thanks go out to JoAnn Bova and Sandi Knepp of Villas Drive who volunteered to manage the mailing logistics of our annual membership drive. Thank you JoAnn and Sandi for your time and effort and your great organizational skills!!

Duke's Bequest

Replacement of dilapidated former benches was made possible by a generous bequest from long-term neighbor Duke DeNuccio. The bench replacement project was completed this month. A small bronze plaque was installed in Duke's favorite spot, and a set of photographs was taken for his family. Thank you to everyone who participated.

New Board Member Kelly Scolaro has agreed to replace departing board member Dennis Dean for the remainder of his term, which expires 12-31-2020. Kelly's appointment was confirmed by unanimous vote of the Board. Kelly, whose relationship with Golden Beach began with childhood visits to her grandparents' home here, is a full-time resident today. Thank you Kelly!

Paver Additions The custom pavers located by our benches have recently been refurbished, and have been augmented with several new messages. Big thanks to Gene Dillahunty and Peter Virgilio for managing the project.

A message that speaks for all of us who made the decision to enjoy life here in Golden Beach?

Signage The existing "hodge podge" of signage at the beach access right-of-way will soon be replaced with several new custom signs. The new signage is designed to be clear, simple, and visually consistent with our existing structures.

Magnificent sunset courtesy of our neighbor Nancy Chase.
Fact: no place on Earth has more sunsets annually than Golden Beach, where the sun sets reliably a minimum of 365 days a year.
